

SPLIT OVERVIEW

Fujitsu General provides our customers with 6 types and 86 models air conditioning system ideal for various customer applications and layout.

Flagship Range Series

Designer Range Series

4-way Flow Series

Circular Flow Series

Slim Duct

Medium Static Pressure Duct

High Static Pressure Duct

For ceiling installation

Wall Mounted

Installation work is simple and easy for wall mounted type. We have pursued airflow control and energy saving including our dual side fan equipped flagship models. At the same time, their flat and simple designs that match the interior are also attractive. We have a lineup with many models that have adopted the new environmentally friendly R32 refrigerant.

- 056 Flagship Range Series **nocria X**
- 058 Designer Range Series
- 060 Standard Range Series
- 062 ECO Range Series

- 064 Designer Range Series
- 068 Standard Range Series
- 074 ECO Range Series

056 Page ~

Cassette

Cassette type adapts to the interior. This type blows air in four directions to perform the air conditioning of entire spaces evenly. We have a variety of series including Compact models that have adopted a new design panel to match grid ceilings and Circular Flow models that deliver air in 360° directions.

- 076 Compact 4-way Flow Series
- 078 Circular Flow Series
- 080 4-way Flow Series

076 Page ~

Duct

The main unit of this type cannot be seen, so your interior will feel clear. We have Mini Duct and Slim Duct models available to also enable installation in narrow spaces in beams or above the ceiling. For a large model suitable for air conditioning vast spaces, multiple outlets can be installed by only one unit. Therefore, these models are recommended for unusual room layout.

- 082 Mini Duct
- 084 Slim Duct
- 086 Medium Static Pressure Duct
- 090 High Static Pressure Duct
- 092 Big Duct

082 Page ~

Floor

Floor type with compact and slim design is suitable for installation in both residential and commercial. This model is recommended as heating device because it blows warm airflow from both above and below outlets.

Installation under window is available.

094 Page

Floor/Ceiling

Two types of installation method – floor installation and ceiling installation – can be selected. This model has a compact design with a width of 990 mm and a depth of just 199 mm (ceiling installation: height). This means they can handle various installation conditions.

For floor installation

096 Page

Ceiling

Installation work is as easy as with wall mounted type. This model can be installed neatly because it has a thin design with a height of 240 mm. It delivers a powerful wind far away from a wide outlet. Therefore, this model is ideal for oblong rooms such as large meeting rooms and audiovisual rooms with depth.
